Description

This gorgeous custom Timber Launch is truly a work of art. Her builder spent countless hours and buckets of love sculpting her from various timbers.

Completed in 1999, the boat is timber and epoxy only and has no fasteners at all... Built using the "Epoxy West System" the laminate work is as pretty as it gets, including the 2 tone tiller and rudder.

"Hot Tub" is powered by a rebuilt 2 cylinder, 20 hp Bukh diesel motor which uses just 2 litres an hour.

There is ample seating all along the sides, a toilet and a V berth forward for those overnighter's.
