Description

2013 Bayliner 175 | Only 95 Hours

A fantastic opportunity to secure a very well presented 2013 Bayliner 175 with an exceptionally low 95 engine hours.

Powered by the reliable MerCruiser 3.0L TKS 135HP petrol engine, this Bayliner offers an excellent combination of performance, simplicity and economical boating. Its manageable size makes it easy to tow, launch and retrieve, while still providing plenty of space for family and friends.

This example presents extremely well for its age and has clearly seen relatively light use. The popular bowrider layout provides comfortable seating throughout, a passenger dual facing seat reclining into a flat laying area with a spacious open bow and practical cockpit making it ideal for cruising, swimming, watersports or simply spending the day on the water.

At the helm, the boat is equipped with a Lowrance Elite 4X, along with trim, speed, RPM, fuel and battery gauges, giving the skipper all the essential information at a glance.

Entertainment is taken care of by a Fusion stereo system, while cupholders throughout the boat add to its practicality when entertaining family and friends.

Access to the water is made easy via the rear swim platform and swim ladder, making it particularly well suited to swimming and family days on the water.

With only 95 hours on the engine, this is a particularly appealing example for anyone looking for a clean, well presented and easy to own bowrider without the cost of buying new.

Key Features

2013 Bayliner 175

MerCruiser 3.0L TKS 135HP petrol engine

Only 95 engine hours

Full boat and leg travel covers
