## Description

Four Winns has taken a lot of what it knows about building larger boats and has used that knowledge to create a small, efficient package. The innovative seating, the Stable-Vee hull and impressive standard features all add up to a nice option for those looking for their first boat. As with other Four Winns craft, the 180 Horizon is built using the company's patented Stable Vee hull. The idea behind this hull design is to eliminate any unsteady feeling due to lateral instability associated with slow speeds, which can be a concern with smaller boats with relatively narrow beams. The hull also takes advantage of a variable deadrise hull ending with a 21 degree deadrise at the transom. This allows the craft to handle waves and rough water smoothly and still have a soft ride in calm water. This boat is mechanically sound and relatively fuel efficient with the 6 cylinder 4.3 mercruiser... Just serviced including the stern drive and new starter motor. Call Paul on 0405 480 256 for more information or inspection.
