Description

Here we have a very original 31ft 1980 Mariner Flybridge cruiser that has been in her current family for 15 years, powered by two economical Volvo diesel motors, this is a great option for extended trips on our beautiful waterways. Built by Bill Barry Cotter the Mariner range of vessels are close to the hearts of anybody that has grown up on the water in Australia, well built, reliable and 100% Australian build.

The mariner 31 Flybridge is definitely the go to 2nd boat on the water, the first is another mariner, the 26 Pacer, the main reason being is that these boats are no nonsense, functional and reliable... Tested over many years on New South Wales and Australian Waters.
