Description

The South Coast 25 represented a significant step in the development of the Australian cruising yacht. It was the first so called "Maxi trailer yachts" to have gone into regular production and also one of the first yachts actually produced for cruising rather than lake or harbour racing.

Additions recently include... Seating recovered, elec water tap in Galley, new solar setup, Cockpit cushions recovered, new lighting, sails, new custom (Silky Oak) Tiller handle, new ladder and step.

The 25 South Coast is a legitimately trailerable cruising yacht that can be towed to some of the best cruising waters in the world... Right here in Australia. "The Castle" has been enjoyed by the vendor but ready for new owners to take the tiller.
