Description

2023 Southbound 30 Cat | Twin Yamaha 300HP | Aluminium Offshore Power Cat

The owner is open to co-ownership

This 2023 Southbound 30 Cat is a serious offshore aluminium power cat, built for performance, stability and confidence in rough, choppy conditions. With a tough aluminium hull, wide 3m beam and twin Yamaha 300HP outboards, this vessel is designed to get you offshore quickly and comfortably, with a listed top speed of approximately 48 knots and an easy cruise around 25 knots.

Powered by twin 300HP Yamaha petrol outboards showing approximately 100 hours each, this Southbound Cat offers strong, reliable performance and excellent manoeuvrability. The vessel is also equipped with Yamaha Helm Master controls, making docking, station keeping and positioning over fishing grounds far easier, particularly when working around gutters, reefs or tight marina spaces.

The deck layout has been cleverly designed for serious fishing and entertaining. There are great walkaround decks, a practical walkway between the engines, excellent under-deck wet and dry storage, a large outdoor cooking area with sink and bench space, gas BBQ positioned under the bait table, and a huge 200L stainless two-door fridge/freezer. With 630L of fuel capacity and 120L of water, this boat is well set up for longer days on the water.

Accommodation includes a comfortable forward double berth, giving you the ability to overnight or rest between sessions. The helm area is well protected by a hardtop roof and features three comfortable helm seats, along with a quality electronics package including Simrad autopilot, chartplotter, sounder, radar, VHF radio and Yamaha Helm Master engine controls.

The onboard amenities are impressive for a 30ft offshore cat, with an electric macerator toilet, shower facilities in the cockpit and transom area, 10L 12V hot water system, Fusion stereo, LED lighting, shore power setup, solar, lithium house batteries and smart charging system. Ground tackle includes a Viper electric winch, Vulcan 12 anchor, chain, rope, fenders and lines.

Safety gear includes 6 life jackets, EPIRB, V-sheet, fire extinguisher, first aid kit, torch and flares. The vessel is presented in near-new condition and is ready for its next owner to enjoy.

A standout opportunity for buyers looking for a modern aluminium offshore fishing weapon with speed, stability, storage and comfort.

Located on Lake Macquarie, Inspections are highly recommended - ready for immediate delivery.
